#### **HEALED BY CUTICURA** SOAP AND OINTMENT

"For several years I was troubled with imples and sore eruptions on my face. The pimples were large, rather hard and red. and came to a head. Then I would open them but they would stay red and fester up again and so on. They were

scattered all over my face and caused a great deal of itching and burning and my face was greatly disfigured.

"After using all the remedies that I could get my hands on. I used Cuti-cura Soap and Ointment. I used them two weeks the pimples were gone and I was healed." (Signed) Vincent Harbeck, Weaverville, N. Carolina, August 1, 1915. Sample Each Free by Mail

# MONTENEGRIN CITY HAS

Is More Turkish Than Slav in Character-Belonged to Ottoman Empire Until 1378.

sion of Montenegro. It gave the little country a pleasant consciousness of international position; for Antivari, the seaport, made the 'kingdom on a mountain' one of the community of na tions interested in the commerce and the control of the Adriatic sea. It gave the land a rank in the world such as was not even enjoyed by the far powerful neighbor ally, Servia, that of being a maritime power Montenegro had a three-fold pridefive centuries of tradition and history of glorious resistance to the Turks, daughter of its royal house upon the throne of Italy and the ownership of this Adriatic seaport." Thus begins a statement given out today by the National Geographic Society, describing the port recently brought under the

guns of the Austrians. "The city of Antivari, shielded on every hand by mountains and embedded in olive groves, is built partly on an island. The town is more Turkish than Slav in character, and belonged to the Ottoman empire until 1878. Its setting is peculiarly nichresque a to the Ottoman empire until 1878. Its setting is peculiarly picturesque, a great niche in rolled and layered mountains, all overshadowed by the peak of Rumiya, which reaches an altitude of 5.148 feet. But a little way outside, the town is invisible beneath its trees, the ruined walls of its village inclosure and the somber age of its houses hidden by masses of green.

#### Protected From Storms.

"A fine bay breaks into the rock estern coastline of the Adriatic where lies this narrow strip of Montenegrin seaboard. Antiari lies about an hour' drive back from the bay, protected largely from the storms that sweep over the waters in autumn and winter Prstan is the port, barren in surround ngs, unencouraging in aspect, and at he mercy of every gale that bounds

"Austrian Cattaro, a splendid natural harbor, a deep pocket-basin blasted out of the rocks by the forces of nature, has dominated the trade of this small region, as the Montenegrin harbor is difficult of access in bad weather, and as but little has been done to develop its possibilities as a port. Austrian Lloyd steamers, however, found it of value to maintain a regular service to and from Antivari before the war. After the successful campaign against Turkey by the Balkan alliance in 1912, Antivari benefited from enthusiasm of the Montenegrins, who began to concern themselves about the future of the port. Austrian Cattaro, a splendid natural

"Fishing is the chief business of the people of Antivari, which, with the in dustry of olive oil reflning, support the town's 2,500 inhabitants,"

Positions on Dyinsk: After an active artillery fire in the region of Tennenfeld the Germans opened two attacks, but both were repulsed.

Caucasus: By our furious and unexpected attack on their center the Turkish army was disorganized and dislodged from a strong position over a front of more than 100 versts (filmiles) extending from the region of Lake Tortum to the region on Charianson river, north of Melazghert, and retreated in the direction of the fortified plain of Erzerum. At many places this retreat assumed the character of a panic flight. Several Turkish units were almost annihilated; hundreds of bodies cover the route of our offensive.

At many points our troops had to advance on heights above the clouds, cutting trenches in the deep snow during heavy snowstorms. We occupied the village of Koprukeui, on the Arax, fifty versts east of Erzerum. In the course of the fighting on the 17th we took prisoners five officers and 208 men and captured much material, including machine guns and caissons.
